

How to virtually queue with kyoo™

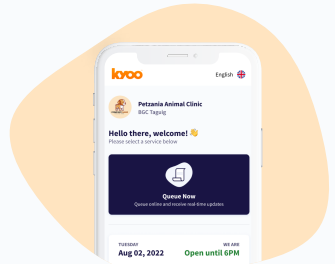

1

Scan the **QR code** to be directed to a link where you can queue online. The following should be displayed: **Services, Average Waiting Time, and No. of Visitors Waiting**

2

Select the **'Queue Now'** button and choose a service that best suits your needs.

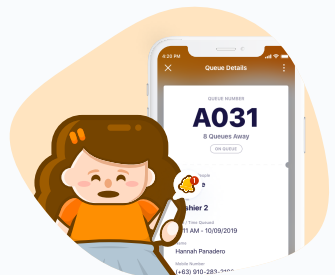

3

Enter the needed information such as your name or phone number then tap **'Proceed'** button.

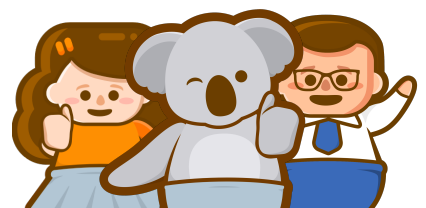

4

Refer to your **virtual queue slip** with queue number. This will be flashed on the TV Display or you can refresh the link to see if "You're on Queue" or "You're Now Being Served".

5

Done!
Please wait until your number is served.
